Index of Authors Included in the Forty-fifth Bibliography

The Roman figures followed by (1) or (2) refer to the centurial classification (Part I). Thus, Allen, P. S., XVI(1)E means that a paper by Allen is listed under seventeenth century, first half, subdivision E.

The Arabic figures refer to the historical and to the systematic classification (Parts II and III) which are subdivided in sections numbered consecutively from 1 to 60. For instance, Tricot-Royer, Dr., 5, 50, indicates that papers by Tricot-Royer are listed in section 5 (Rome), and in section 50 (History of medicine).

Index of Authors Included in the Forty-sixth Bibliography

The Roman figures followed by (1) or (2) refer to the centurial classification (Part I); thus Aegerter, E., XIII(2) means that a paper by Aegerter is listed under thirteenth century, second half.

The Arabic figures refer to the historical and to the systematic classification (Parts II and III) which are subdivided in sections numbered consecutively from 1 to 60. For instance, Eliade, M., 9, indicates that a paper by Eliade is listed in section 9 (India); Fettweis, E., 16, indicates that a paper by Fettweis is listed in section 16 (History of science).
